CAREER HISTORY

IMAGING CLERK
Chi Franciscan Health | 2017- 2019

- Worked in the emergency department helping the radiologists and the CT techs to position patients.
- Helped to coordinate appointments and medications for the patients that were going to undergo surgery.

EDUCATION & TRAINING

GENERAL ASSEMBLY
Software Engineering Immersive | Graduate 2019
- Freelance work with multiple clients building full stack applications.
- Built full MERN stack apps for multiple projects

PROJECTS

Dave Designs
davedesigns.netlify.app
 - Website I built for a client in New Hampshire. Uses Gatsby to show his wood working skills.

React To Do
todoleest.herokuapp.com
- Uses axios, React.js, MongoDB, express and node to make a to do list. It uses googles speech-to-text API and allows for verbal listing of items. Only works on Chrome right now. Hosted on Heroku, which takes a little bit to load.
